

Nunda Historical Society 2023 Capital Building Fund Drive Donor Form

The Nunda Historical Society has established the 2003 Capital Building Fund Drive to raise money to improve and expand our existing facilities at 24 Portage Street in Nunda. The project will include a 835 sq ft addition on the west of the building, providing for much needed additional archives space and a research/classroom that will improve public access to research material and educational programming. The project will also include additional upgrading of our HVAC system and improve the energy efficiency and aesthetics of the building's exterior.

The cost of this project is \$160,000 to be completed in three stages ; the basic cost of 120K for the addition; \$20K for siding the west side of building; and the final \$20K for siding the east side. We have saved \$70K for this project, but we need your help to make it a reality! **Please Donate!**
